

DARK NIGHT

Photographer: Christina Simons for Jill Orr
Jill Orr ©

Performance artist, Jill Orr creates site-specific works that grapple with the balance and discord that exist at the heart of relations between the human spirit, art and nature. The performance, *Dark Night*, presented for the opening weekend of the Lorne Sculpture Biennale, 2018, is evocative, poetic and pretty crazy, but at its core, the earthy underpinnings ground it as a serious environmental reflection of hope and possibility.
